

Complete examination of urine

Urine must be collected the morning of examination day. Collect the first urine of the morning or, alternatively, urine after at least 2 hours after the first.

Avoid collecting urine during menstruation.

In order to sample urine successfully, please:

- Wash your genitals with soap and water carefully
- Collect the first part of the urine flow into the container
- Submit to the clinic as soon as possible or store at + 2 ° - 8 ° C for up to 4 hours
