“Disfagia e rischio di malnutrizione nel paziente Head and Neck”, **Enrica Grosso**

Regional meeting of ADI Lombardia: Dietetics and oncological nutrition “evidence-based”, Milan, European Institute of Oncology , september 2018

Personal

I think I’ve got a good temper and I’ve got a good feeling with my colleagues and with my chief. I’m able to work in team.

I know my defect and I try to improve them.

I love being a Doctor for the satisfactions it gives to me from a human point of view.

People trust on me for my professionalism in my job and my empathy as a person.

I love travelling, singing, art, fine food and wine, staying with friends. I love taking care about my family.

I hate people who don’t care about what they do or that don’t put heart in their job, especially if they work with sick people.
