Clinical and Research activities

Fedro Peccatori is a medical and gynecologic oncologist whose clinical activities mainly include diagnosis and treatment of breast cancer, gynecological malignancies and tumors of young adults. He is Director of the Fertility and Procreation Unit within the Division of Gynecologic Oncology in the Department of Gynecology at the European Institute of Oncology, Milan Italy.

His main research projects deal with fertility preservation and counselling in young oncological patients, pharmacological protection of ovarian function during chemotherapy, clinical and molecular characterization of pregnancy associated cancers and research protocols for the treatment of breast and gynaecological malignancies.

In the past, his research interests dealt with hematological malignancies, and he has been involved in the study of malignant lymphomas and autologous and allogeneic peripheral blood stem cell transplantation in solid tumors and leukemias.

He has acted as lecturer in a number of international meetings, and in the last 5 years has taught at Varese, Pavia and Milan University. He has been considered eligible within the 2012 Italian call for Associate Professor in Oncology and in Obstetrics and Gynecology. He is Deputy Scientific Director at the European School of Oncology (ESO). As President of PROFERT he has contributed to build up the Italian network of fertility preservation for cancer patients. In 2012 he has received research grants from the Ministry of Health for a project on cancer and infertility (CCM program) He has acted as referee for European Journal of Chemoprevention, Annals of Oncology, The Breast, International Journal of Gynecologic Cancer, PLOS, Lancet Oncology, Ecancermedalscience. He's in the editorial committee of Ecancermedalscience and Cancerworld.

Publications

Fedro Peccatori is author and co-author of 129 publications on peer reviewed journals, indexed on PubMed (<http://i.nlm.nih.gov/pubmed/?term=peccatori+f> and <http://www.ncbi.nlm.nih.gov/pubmed/?term=peccatori+a>).

He has been author or editor of more than 10 book chapters and reviews available on paper. He has edited and authored the books “Cancer and Pregnancy” (2007) and “Fertilità e Oncologia” (2009) and authored the chapter “Cancer and Pregnancy” in “Core Curriculum in Obstetrics and Gynecology” (2013) and the chapter “Special issues in the young and pregnant patients with breast cancer” in “Cancer Consult” (2014). His H index, according to Web of Knowledge (accessed 22 Feb 2015) is 23.
